

Wohnhaus Wiernsheim

TYPE OF APPLICATION: timbre frame construction

LOCATION: Wiernsheim - Germany

DATE OF CONSTRUCTION: March 2005

ENGINEER/ARCHITECT: Bangert

CONTRACTOR/PLASTERER: Kirschner

Description of the project

Timbre frame construction with oriented strand board (OSB). Stucanet was fixed to vertical battens at 40cm distance. The bituminous paper at the back of Stucanet SH was required for backing ventilation. 2cm of plaster, fabric and 1cm of finishing coat were applied on the Stucanet.
